Profiles in Diversity Journal

Stacie Ropka, PhD, partner in Axinn's IP Group, has been identified as a "Woman Worth Watching in STEM®" award winner by the *Profiles in Diversity Journal*. Stacie is one of 45 women being recognized for breaking barriers in STEM® careers. While the award winners work in a variety of industries, they all create value for other women and companies, organizations and agencies in science, technology, engineering and mathematics.
