PROFILE

Michelle Divelbiss is an associate in the Intellectual Property and Food and Drug Administration (“FDA”) practice groups. Her practice involves patent litigation, particularly cases brought under the Hatch-Waxman Act, and counseling relating to FDA matters.

Michelle was Online Editor of The George Washington Law Review. Prior to earning her JD, she was a research associate at a biotechnology company focused on the development and commercialization of prognostic tests relating to cancer metastasis. She was a Summer Associate with Axinn in 2018.
