Raymond Braha represents pharmaceutical and medical device companies in complex intellectual property disputes, focusing on patent litigation. He has experience handling cases in federal courts and before the U.S. International Trade Commission (ITC), drawing on his background in chemistry to quickly grasp the technical aspects of his clients' innovations.

Before entering private practice, Raymond served as a judicial intern in the U.S. District Court for the District of New Jersey, where he supported judicial decision-making on a range of pre-trial matters. He earned his JD from Fordham University School of Law and holds a BA in Chemistry from Johns Hopkins University.

Raymond is proficient in Hebrew.
