Axinn is proud to sponsor Concurrences' 17th New Frontiers of Antitrust conference, taking place in Paris on December 3.

As part of the conference, Axinn Antitrust Practice Chair Michael Keeley will speak on the panel "Mergers at a Crossroads: Balancing Dynamic and Static Effects" at 11:45 a.m.

The panel will examine how merger review can account for both near-term competitive effects and longer-term innovation and efficiency gains. The discussion will also explore the role of merger control in facilitating exit opportunities and capital redeployment, as well as practical considerations for companies and competition authorities seeking to balance efficiencies with the preservation of competition.
