PROFILE

Kholud Dardir is a technical specialist in Axinn's New York office. She received her PhD, master's, and bachelor's degrees in Chemistry and Chemical Biology from Rutgers University. Prior to joining Axinn, Kholud worked in the Office of Research Commercialization at Rutgers University where she helped prepare technology assessments and marketing data for physical science, biomedical technologies, medical devices, and engineering technologies disclosed by Rutgers researchers. She also has experience working as a scientist for a major pharmaceutical company.

PROFESSIONAL ACTIVITIES

- Women in Licensing
- ACS Younger Chemist Committee
