PROFILE

Stacie's practice focuses on intellectual property litigation, due diligence and client counseling, with an emphasis on the life sciences. Her IP counseling and due diligence experience includes extensive counseling for product development efforts relating to biologics and reconstructive biomaterials, including products that utilize adult stem cells. In addition, Stacie has served on the trial team for several patent lawsuits involving major pharmaceutical companies.

Prior to attending law school, Stacie held a faculty position at SUNY Upstate Medical University. She also spent many years as a research scientist in the fields of neurology, virology and immunology, both at Northwestern University and SUNY Upstate Medical University, and has presented her original research at numerous scientific conferences.
